Professional Summary

MERN Stack Developer with practical experience in building, optimizing, and deploying web applications using React, Node.js, and MongoDB. Strong understanding of REST APIs, authentication flows, and performance-focused frontend architecture. Comfortable working in fast-paced, collaborative development environments.

Technical Skills

Languages: JavaScript, C++, HTML, CSS

Frontend: React, Redux, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, REST APIs

Tools and Platforms: Git, GitHub, Postman, VS Code, Vercel, Render, MongoDB Atlas

Experience

Research Analyst Intern – Baymn

Jan 2026 – Present

- Conducting technical and market research to support data-driven product decisions.
- Analyzed datasets and trends to generate structured insights for internal reports.
- Improved research turnaround time by standardizing data collection and documentation workflows.

Frontend Developer Intern – CodSoft

Jul 2025 – Aug 2025

- Built responsive UI components using React and Tailwind CSS for multiple client projects.
- Integrated REST APIs and optimized component structure, improving page load performance.
- Enhanced usability and accessibility, reducing UI-related bugs and rework efforts.

Google Student Partner

Jul 2025 – Dec 2025

- Represented Google developer initiatives within the student community.
- Organized technical sessions, workshops, and outreach programs.
- Strengthened student engagement and adoption of Google developer tools.

Projects

Dogesh Bro – 3D Web Application

- Built an interactive 3D web experience using React and Three.js.
- Implemented camera controls, animations, and responsive layouts.
- Optimized rendering performance, reducing initial load time by approximately 30%.

Glotify – Music Streaming Web App

- Developed a music streaming application with search, playlists, and playback features.
- Implemented Redux for state management and real-time UI updates.
- Improved responsiveness and performance across desktop and mobile devices.

LeetCode Data Visualization Dashboard

- Built a data visualization dashboard using React and D3.js.
- Designed interactive charts and filters to analyze coding performance.
- Delivered actionable insights through a clean and intuitive UI.

Education, Certifications and Open Source

B.Tech in Information Technology – Dr. Ram Manohar Lohia Avadh University

2024 – 2028

- Earned industry-recognized certifications including **Google AI Certification** and **TCS iON Young Professional**.
- Actively contribute to open-source projects by fixing bugs, improving documentation, and enhancing frontend features.
- Collaborate with global contributors using GitHub issues, pull requests, and structured code reviews.
